

Comparison of practice populaton age bands with % recorded ethnicity for aggregated ethnic groups, among all 151 practices, 2005/6

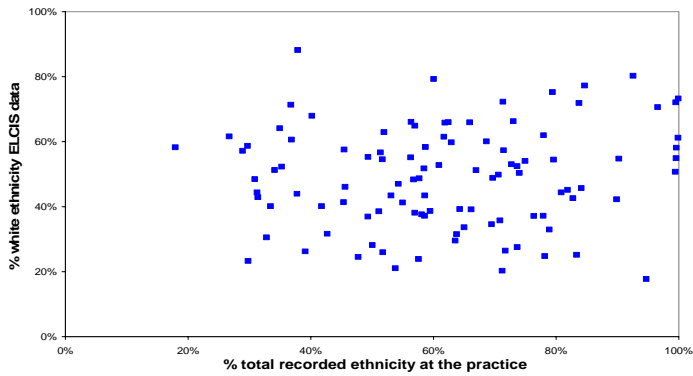

Appendix Figure 2 Age profiles for recorded ethnicities compared to age profiles for practice lists

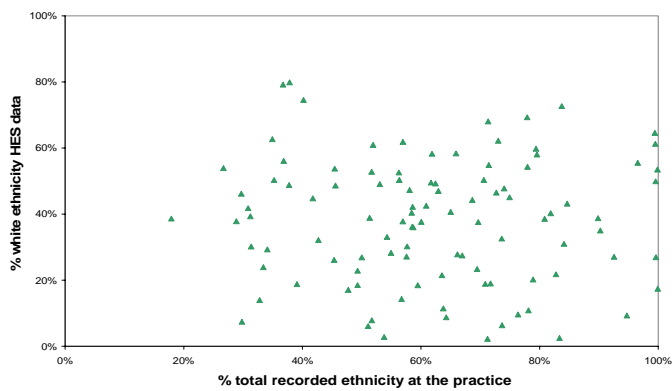

Practice data: % with White recorded ethnicity vs total practice ethnicity recording rate 2006/7

ELCIS data: % with White recorded ethnicity vs total practice ethnicity recording rate 2006/7

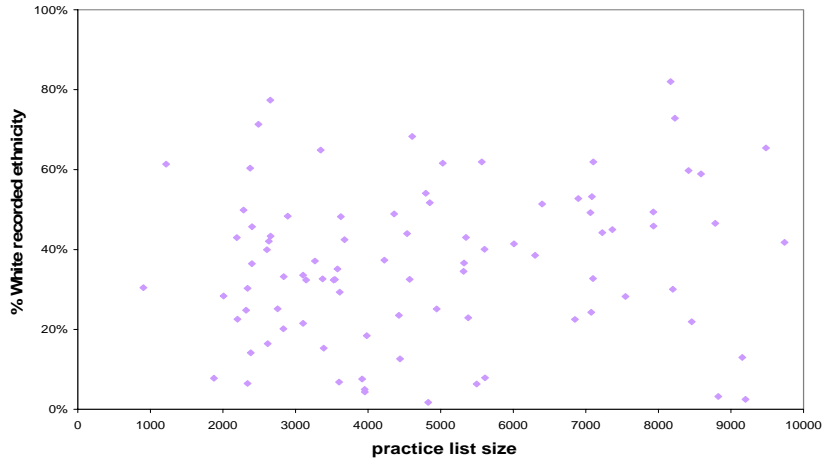

HES data: % with White recorded ethnicity vs total practice ethnicity recording rate 2006/7

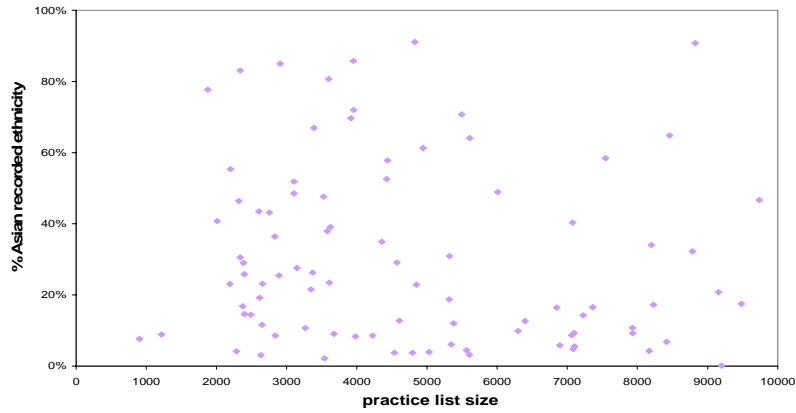

Plots shown only for white ethnicity, results similar for all three aggregated ethnic groups

Appendix Figure 3 The percentage recorded ethnicity (all groups) by practice vs recording of each aggregated ethnic group for each of the three data sources

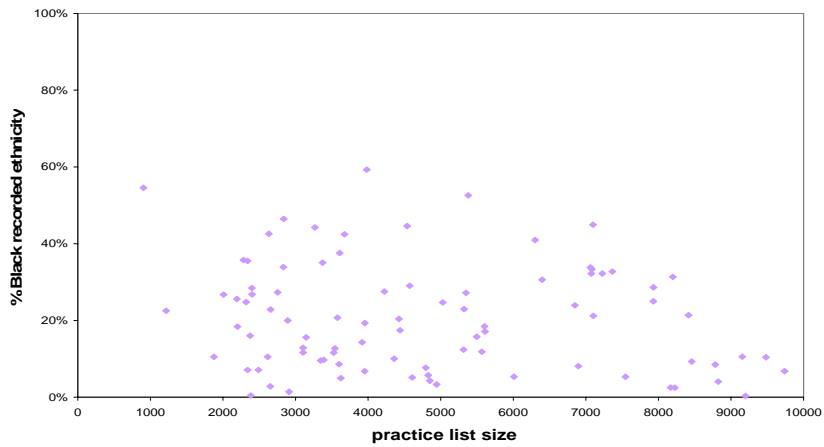

White recorded ethnicity % vs Practice list size 2006/7

Asian recorded ethnicity % vs Practice list size 2006/7

Black recorded ethnicity % vs Practice list size 2006/7

Appendix Figure 4 Practice list size vs % recording of the three aggregated ethnic groups
